

Trip Flyer  
East of Armadale  
Saturday 18 June 2022

A bit of a change to the planned trip. It is now just a one day trip on a Saturday.

Heading south initially we will follow the East of Armadale track towards Brookton Highway.

I am expecting a few challenging sections along the track where we might get a bit muddy (well at least our vehicles).

If time permits, we will try to clear some of the fallen trees off the track that we saw out that way last year. Please bring a chainsaw if you have the room.

Bring along your sense of adventure, recovery gear etc and be prepared for what ever mother nature can throw at us.

Recovery points will be essential as I expect it to be wet and boggy.
